Safety

OUR POLICY ON OCCUPATIONAL HEALTH

Occupational Health includes the planning, organization, implementation and evaluation of the activities of preventive medicine, occupational medicine, industrial hygiene and safety, designed to preserve, maintain and improve individual and collective health of the employees, that will produce better results for our company.

Within this area we work proactively for the health of workers, which happens to be an important part of business strategy, and a great investment that will surely result in better results for the company.

We are committed to continuous improvement in the management of human and natural resources consistent with our mission of generating well-being every day and in every place.
