

**Corporate**  
**WHO WE ARE**

Logan Drilling Group is a company that is committed to the communities in which we work. For this reason we create opportunities for these communities through direct employment in the field, the use of local suppliers and protecting the local environment.

**MISSION**

Our mission is to provide quality drilling services for both Geotechnical, Environmental and Mining exploration industries with a committed work force from senior management down; to provide a safe rewarding work place for our employees; and a personalized service to our clients while always leaving a positive experience in the communities we work.

**VISION**

To be a drilling company that is recognized for completing its projects in a safe, productive and efficient manner, while maintaining a top quality service and growing a base of clients with whom we meet each specific project requirement.
